Grow a Bean Stalk

Materials:
- 5 Bean seeds (uncooked bean)
- 1 Sandwich/ snack bag
- Cotton balls (about 6)/ paper towels (1 full towel)
- Tape
- Water

Directions:
1. Take your cotton balls/ paper towels and dampen them with water
2. Place the cotton balls/ paper towels into your plastic baggie.
3. Add you bean seeds (uncooked beans)
4. Seal the baggie and tape it to the window.
5. In a few days you should see the seed start to sprout.
6. Once your bean has begun to sprout, remove it from the bag and plant it in some soil.
