

Pitching Pennies

About: this is a very old game and was played by the ancient Greeks. It is believed that it may have even been included in the original Olympic Games.

Number of Players: at least 2

Other supplies needed: 1 penny per player, a wall

Instructions:

1. Each player will get a penny (mark with your initials so you know which one is yours)
2. Each player will take turns tossing their penny at the wall from the same distance.
3. When the penny bounces off the wall, it will land on the ground.
4. Players will leave their pennies on the ground until all players have finished "pitching" their pennies.
5. Observe the distance between the pennies and the wall. The player whose penny is closest to the wall wins.
